

# Recognized Student Organization Classification\*

“Recognized student organizations” shall refer to all student groups who register with, and receive recognition from Student Leadership & Involvement. The term does not include ASUU government or any University departments with student-led initiatives and outreach programs that do not seek recognition with SLI and are functions of the University department. The recognized student organization must select their own leadership, and they must not be compensated for their involvement by the University department.

Required Information: Constitution | Three Student Officers | Non-Discrimination Policy

## Sponsored

Sponsored by a Department  
A Part of the University  
Advisor has Responsibilities in Job Description
